

Adjustment hex keys and locking tuners

Turn tuner locking screw clockwise to lock anticlockwise to unlock string

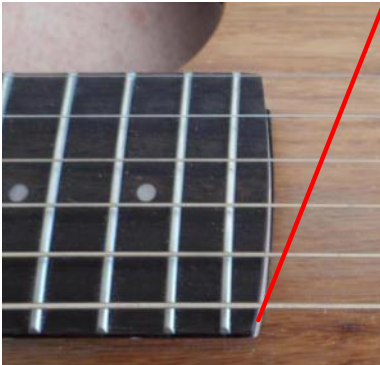

Make sure there is not more than one turn of string on the capstan too many turns may allow the string to unwind from the capstan when the instrument is folded

This key adjusts the truss rod for more neck relief turn clockwise for less neck relief turn anticlockwise

This key adjusts the neck position relative to the strings

Removable scratch protection film

Rear strap hanger and jack socket

RECYCLING INSTRUCTIONS

Please take the time to dispose of your equipment properly.

Product Recycling:

Please do NOT dispose of your Snap Dragon in the household trash.

Please take the equipment to a electronics recycling centre; OR, return the product to the factory for proper disposal.

Battery Recycling:

Please do NOT dispose of used batteries in the household trash. Please take the batteries to a retail or community collection point for recycling.

Registration number: WEE/DG2599UZ/PRO and therefore fulfil their obligations in accordance with the Waste Electrical and Electronic Equipment Regulations 2006

To remove back moulding remove the three small screws that hold the back on and carefully pull the back off there is a rubber seal that you need to be careful not to damage

If pivot needs adjustment use a 5mm hex key adjust one quarter turn and check neck pivot is tight enough not to rock and free enough to open and close easily.
